Industrial Liaison Offices (ILO) for  
empowerment of a cross border  
Digital, entrepreneurial and  
professional skills network

## ILOFORDIGITAL

Italy  
Albania  
Montenegro

### Project Objectives:

The overall objective is to share, develop and strengthen skills, methodologies and knowledge to empower a cross border Digital, entrepreneurial and professional skills network. The training, networking and accompanying actions will be addressed to all actors involved in the exploitation of research results, technology transfer and third mission, including ILO managers and the companies, capitalizing the experience, methodologies, models, network, and training developed within the ILONET project
