Cultivating Territorial Values with a  
Bio-District Approach

## BIO-DISTRICT APP

Italy  
Greece

### Project Objectives:

The "BIO-DISTRICT APP" project aims to advance sustainable and resilient organic farming practices and tools in the target region and at the cross-border level. It will pursue this objective by adopting a bio-district approach within which innovative digital services will be developed through the Living Labs methodology to deliver through a common digital platform across Italian and Greek regions.

#### Funding:

European Union
