Social Entrepreneurship for
Sustainable and Social
Transformation of Neighbourhoods

SOCIAL NEST

Turkey
Italy
Switzerland
Portugal

Project Objectives:

The overall objective of SOCIAL NEST is to demonstrate, analyse, and upscale integrated bottom-up social entrepreneurship models that regenerate neighbourhoods in line with the New European Bauhaus (NEB) values of sustainability, inclusion, and beauty. The project aims to develop socially innovative, culturally rooted, and economically viable models that transform neighbourhoods into living ecosystems of co-creation, where citizens, social enterprises, public authorities, and local businesses collaborate to address social fragmentation, economic
